Lively Prize-fight at San Francisco.

Murphy of Australia Knocks Out DeLany of Boston.

Oregon's Governor Sits Down Heavily on Senator Dolph.

Oroville Mining Property Damaged by the Recent Storm—Asylum Commissioners Now Favor Harriet Springs.

By Telegraph to the Times.
SAN FRANCISCO, Oct. 25.—[By the Associated Press.] Jimmy Murphy of Australia and Jack Delany of New York, lightweights met at the home of the Occidental Athletic Club tonight in a fight to a finish for a purse of \$600. Both men proved themselves clever, and the fight was hard one throughout.

Murphy forced the fighting from start to finish, and in the fourth round split Delany's upper lip, which caused blood to flow freely. Four times during the fight Murphy made terrific passes at his opponent, and each time Delany dodged his blows, causing the Australian to fall sprawling on the floor.

In the seventh round Murphy seemed to have fought himself out, and Delany forced the fight to a draw. Murphy was a right-hander at Murphy's neck, but each time the Australian cleverly stopped him.

In the eleventh round Murphy got in a blow on Delany's neck which staggered him, and following up his advantage, he knocked Delany out by a right-hander on the jaw.

DOWN ON DOLPH.

Gov. Pennoyer's Criticism of the Senator's Scheme.

PORLAND (Or.), Oct. 25.—[By the Associated Press.] Gov. Pennoyer replies in tomorrow's Oregonian to Senator Dolph's strictures on his advocacy of portage instead of a boat railroad at The Dalles of the Columbia. The Governor charges Dolph with being six years in Congress without getting a dollar appropriated for opening the river at that point, and for now asking for the expenditure of money for an impracticable scheme. He denounces the Senator's bill for coast defenses, and declares there is no danger of a foreign war, and that modern explosives have rendered such defenses worthless.

The Horticulturists.
SAN FRANCISCO, Oct. 25.—The Horticultural Society had its annual meeting here this afternoon and reflected the present officers as follows: President, E. W. Hilliard; vice-president, A. T. Hatch; secretary, E. C. Wickson; treasurer, R. J. Trimble; directors, S. J. Stabler, J. A. Wilcox, C. C. Coates, F. C. Lelou and W. C. Blackwood.

A communication from the State Board of Horticulturists was received, calling attention to the coming convention of fruit-growers at Fresno.

A Waif's Long Journey.
SAN FRANCISCO, Oct. 25.—Little Kluby, an 8-year-old child, arrived here on the overland train today from New York, having made the journey alone, and depending upon charitable passengers for meals. She carried a letter from the general manager of passenger cars of the New York Central and Hudson River Railroad, commanding her to the care of conductors along the route. No one met her, and she was taken in charge by Police Sergeant Sergeant, who found her wandering around the ferry.

Coroner Taylor Will Be Paid.
SAN FRANCISCO, Oct. 25.—On motion of Attorney Knight, Judge Lawler today dismissed the action against J. G. Groves to oust Coroner Taylor from office on the ground that he was disqualified by reason of being a Federal officer and drawing a salary as medical inspector of the navy. This order of the court will enable Dr. Taylor to draw his salary, which has been withheld for six months past awaiting the termination of the action.

Harlem Springs an Asylum Site.
SAN BERNARDINO, Oct. 25.—The Asylum Commissioners this morning agreed to accept 388 acres at Harlem Springs. Other lands adjoining this tract, amounting to 282 acres, were sold at a price for the entire property, including water rights, is about \$160,000. The commission did not formally choose the site, but appointed its chairman to confer with the Governor.

Failed to Agree.
SALINAS, Oct. 25.—The jury in the case of Newton Asbell, on trial for the murder of J. S. Readon and John McAdie in September, 1887, was discharged today, being unable to agree after 19 hours' deliberation. This is the fourth trial of the case. It is understood that at one time the jury stood ten for conviction and two for acquittal.

Odd Fellows' Temple Dedicated.
BLOOM, Oct. 25.—Bidwell Lodge No. 47, I.O.O.F., dedicated its new temple today. Grand Master C. N. Jenkins conducted the ceremonies, which were attended by large delegations from sister lodges. Hon. W. G. Murphy delivered the oration. A grand ball this evening concluded the ceremonies.

An Old Chief's Death.
SAN DIEGO, Oct. 25.—The remains of Manuel Larios, former chief of the Cobujita tribe in Indians, in this and San Bernardino counties, have been found near the village of Duraznos, Cobujita Valley. It is thought he has been dead two months. Largo was about 100 years old.

The Bicycle Tournament.
SAN FRANCISCO, Oct. 25.—The score in the bicycle tournament at midnight stood: Knaps, 603 miles, Morgan, 603, Redding 582, Oaks 617, Baldwin 611, O'Brien 566.

LEVANTED.

Three Chain-gang Men Take French Leave.

Escapes from the chain-gang are becoming rather frequent of late. Yesterday saw the delivery of three prisoners from the custody of the authorities, one escaping from the station early in the morning and the others from the chain-gang during the afternoon. James Hammond, a prisoner awaiting trial, was sent to clean the sidewalk in front of the station by Jailed Clinton yesterday morning, and he took advantage of the opportunity offered and made good his escape. The chain-gang was at work on Flower street, near Court street, under charge of Officer Lockwood, when suddenly William Watson and James Mangin, whose sentence would have expired within a short time, took to their heels and ran in opposite directions. The officer could not pursue them without leaving a chance for others to follow their example, and they soon disappeared. None of them had been recaptured yesterday.

Supreme Court Adjourned.
The Supreme Court adjourned at noon yesterday, after the consideration of several cases, during the morning. At 1:30 o'clock all the judges left for San Francisco. The term has been an unusually busy one in Los Angeles, a large number of cases being heard each day than ever before.

A DEFIDENT SMUGGLER.
Max Otto Just Across the Border with a Gun.

There were a number of witnesses from San Diego before the United States Grand Jury yesterday, which sat during the day, and it is surmised that they were witnesses in the smuggling charges against Max Otto and Ernst Wolf, who were held by the Commissioner several weeks ago. The two men were charged with smuggling cattle across the line near Tia Juana. Max Otto gave bail in the sum of \$500 and Wolf in the sum of \$100. A short time afterward Otto jumped his bail, and went across the border. He is now in Tia Juana just over the line, and defies the United States authorities. He is keeping bar for Guan, recently released from the County Jail, where he served six months by order of the United States Court.

United States Deputy Marshal Dominguez saw him there a few days ago when he was down in that vicinity for witnesses. Guan's saloon is only ten feet across the line, and Otto keeps a big six-shooter strapped about him with which he threatens to shoot the first man who attempts to lay hands on him to get him back into the United States. Otto has a sweetheart across the line whom he wishes to marry, but he does not want to marry her in Mexico and is afraid to cross the line. In order to meet him, the Dulcinea visits him nearly every day in his own country by stepping across the line. Thus it may be seen that the course of true love runs with smugglers very much as with ordinary people. Otto says that when he gets ready to give himself up to the authorities he will do so, but not before.

Detective Wallen was put on the case, and spent all of yesterday in looking it up.

He found that the young lady intended to visit her mother, who lives at No. 343 South Spring street, on the evening she left Mr. Harris's house, but that she never arrived at her destination. From Mrs. Lindrum the officer learned that her daughter, although an exceptionally pretty girl he gets much sought after by members of the male sex, did not seem to care for the attentions of any but admirers save one, who is a married man with several children. Although she was aware of his marriage, the girl continued to receive attentions from him. Her mother remonstrated with her, but all to no purpose.

Mr. Harris informed the officer that this man, whose name could not be ascertained by the reporter, had always been on very friendly terms with his family, and that he believed him to be devoted to his wife and children, who are now living in San Francisco, and would never suspect him of any wrongdoing toward them. The officer learned, however, that this man had been in the habit of visiting the pretty domestic at Mr. Harris's residence, and that he left for Bakersfield on the 13th inst., at which time he was accompanied to the Southern Pacific depot. Miss Lindrum and a girl companion.

Ever since his departure the girl has complained of feeling sick and the family physician has been in attendance upon her, and when she disappeared so suddenly and without a word to any one, fears were entertained that she had met with foul play or had made away with herself. From the information gleaned by the detective, however, it is fair to surmise that she has gone to meet her married admirer. The girl has a small hand-satchel and what jewelry she possessed, but left her best clothes behind, taking nothing but the dress she had on.

The authorities have written to Bakersfield to ascertain whether the twain are there, and in a few days the facts will be known to a certainty.

When the wife learns of her husband's infidelity there will, no doubt, be quite a scandal, as the man is said to have been very popular here.

RAILROADINGS.

MR. SMURR AND HIS SUCCESSION ON DECK.

The Railroad Boys Welcome the Coming and Speed the Parting Guest—A Man with a Grievance Against the California Central.

Charles F. Smurr and his successor, Mr. Crowley, arrived in this city yesterday before last. Both gentlemen were seen by a TIMES reporter yesterday. Mr. Smurr is highly pleased with his promotion, although he greatly regrets leaving his numerous friends in Southern California. Mr. Crowley is not a stranger in this section of the country, and there is no doubt but that he will give general satisfaction, for he is a thorough railroad man, and has the reputation of making friends wherever he goes. Mr. Smurr will spend several days with him before leaving for his new quarters in San Francisco. Both gentlemen are surprised that Mr. Stubbs accepted the eastern position. They are of the opinion that he will get homesick very soon, and will long for his old place. He is a general favorite with the boys in the freight department, and they all regretted to see him go.

All of the roads were in order yesterday, with the exception of the Los Angeles and Pacific.

Thursday's Chronicle says:

C. H. Wood of Daggett has written a letter to Commissioner White of the Railroad Commission asking an investigation of a grievance which the writer charges to the California Southern. Mr. Wood was residing at Alessandro, a station north of Perris, on the line of the railroad named, he inquired the cost of moving his furniture to Daggett. He was informed that it would cost \$600 to \$1000 or \$400 a carload. Thereupon he shipped 3500 pounds to his newly-chosen home. On demanding his goods he was informed that the freight was \$30 more than the correct amount, and he was charged \$100 for the extra. Mr. Wood declined to pay, and wrote to S. B. Hyatt, general traffic manager of the California Southern at Los Angeles, but received no reply. He has now been here without a roof over their heads, and seems to be indemnified for the inconvenience and expense. The rate of 67 cents would have made his freight bill \$38.45, instead of which he was asked \$16.00, 100 pounds, or \$6.70, an excessive charge of \$3.70.

J. E. Haverstick, traveling auditor of the Atlantic and Pacific, will leave for Abuquerque this morning.

Antonio Quintino one of the delegates to the Railroad Constructors' Convention, now in this city, is probably the oldest man in the business in the country. He was born in 1816, and has been connected with railroads since 1835. He is now a division superintendent on the Baltimore and Ohio road.

One of the agents of William Bell, the representative of the Pennsylvania lines in this city, was arrested and fined \$100 in Santa Cruz, for putting up a sign bearing the words, "Pennsylvania route," on Monday last.

Wet weather has interfered considerably with the freight business.

The Hotel and passenger and ticket agents of the Vanderbilts will arrive on this coast next month in a special train, coming via the Northern Pacific via Helena and Tacoma. They will visit Seattle, Victoria and Portland, and will spend a week in the latter, enroute hence to San Diego, and return via Oregon.

The Chicago and Northwestern excursion party which left for the East yesterday numbered nearly 100 persons.

William Warden, agent of the Chicago and Northwestern at Los Angeles, is in the city.

Miles and Garland, late of the Wabash, are said to have gone into the ticket-sellings business, and their successors have not yet been appointed.

Work was commenced on Monday last on the San Diego and Eastern Railroad. About 1000 feet of bridges and trestles will be built, and the road will be completed in a month, it is expected that arrangements will then have been perfected for the construction of the road from San Diego to Yuma.

A CROOK CAPTURED.

Sweeney, the St. Charles Hotel Robber.

At 10:30 o'clock last Tuesday evening, Johnnie Fallon, one of A. B. Lawson's patrolmen, when passing the St. Charles Hotel, noticed two suspicious characters come out of the doorway and hold a whispered conversation as they proceeded along the sidewalk. He shadowed them for some distance, and overheard enough to justify him in suspecting that everything was not right at the hotel. On inquiry of the officers, however, he was informed that nothing suspicious had occurred, so far as he knew.

Wednesday morning it was discovered that a burglar had been committed the previous evening, the thief having entered the hotel from the rear, and by the use of a skeleton key effected an entrance into the room of one of the guests. It was found on examination that he had carried off a telescope, a pair of field glasses, a pair of green quartz sleeve-buttons and a pair of socks.

Fallon was not notified of the burglary until he went on duty on Wednesday night. He reported the case to Capt. Peabody, who commands Lawson's patrol, and that officer promptly had a warrant sworn out and he and Fallon worked on the case all day Thursday with unremitting energy and vigor. Their efforts were crowned with success about 7 o'clock in the evening, when James Sweeney, an all-around crook, was captured by the police and duly lodged in the County Jail. Yesterday Sweeney was arraigned before Justice Savage, and his hearing set for Tuesday. In default of \$2000 bail he was returned to the care of Capt. Darcy.

The telescope and field-glass were yesterday recovered by the officers from a pawnshop, where Sweeney had "spotted" them.

Capt. Peabody and Mr. Fallon deserve much credit for the promptness with which they traced and captured the robber and recovered the most valuable of the stolen property.

Marriage Licenses.

Marriage licenses were issued yesterday to the following persons: Robert Adair, aged 29, of Monrovia, and Mrs. Hattie B. Griswold, aged 32, of Duarte; Martin G. Smith, aged 34, and Lotitia Pray, aged 18, city; Thomas Burns, aged 39, and Mary Menihane, aged 27; William Strother, aged 30, and Cora Campbell, aged 32, of Pasadena.

Dr. Slocum, the surist, has removed from the Charnock block, cor. Fifth and S. Main. Diseases of the head and throat exclusively. All forms of deafness, noises in the ear, skillfully treated. Hours, 9 a.m. to 5 p.m.

Trusts were again very prominent in the dealings, and sugar was weak on a rumor of losses by the trust, with a probable further fall in the price of its product, together with new opposition. Later, however, sugar recovered on a report that no decision in the North River case would be handed down today.

THERE is a suspicious haziness in the air still.

ORANGES on North Orange Grove are turning yellow.

HAZARD, the Tacoma idol, was a good example of that unpleasant Americanism, cheek.

The atmosphere in the valley was remarkably clear yesterday, Old Baldy, San Jacinto, San Bernardino and Santa Ana and hills and mountains beyond being distinctly visible. The tallest are slightly capped with snow.

The Division of Entomology in the Department of Agriculture is doing good work. Through it Los Angeles county has obtained a resident agent, and it was due to the suggestions of Prof. C. N. Riley, the chief of this division, who visited this section of California in 1877, that an agent was sent to Australia to obtain, if possible, an enemy to the white scale. Prof. Riley gives the names of 13 genera of predaceous insects, enemies of the scale here, and six true parasites which would in time have to some extent checked the formidable *Icerya*; but the Australian ladybug was an immediate remedy, not only to the white but black scale, not a living one remaining upon trees over which the little beetles roamed.

ANENT chrysanthemums, the Short Hills Nurseries of New Jersey made an exhibit last year of 1500 of these fashionable and attractive plants, all in bloom at once. The center of attraction was the new "Mrs. Alpheus Hardy," that took a silver medal at the Boston show, another in Philadelphia, the medal of superiority at the American Institute, first prize at the New York Horticultural Society, and the highest honors at the New York Floricultural Society at Orange. The Park Nursery at Linda Vista has a fine display of chrysanthemums. With all our nurseries, rare plants and flowers, it would seem possible to have a flower show here.

If any suggestions have been made as to the celebration of the arrival of rapid transit in this city, we have not seen them. It is not too early to begin to think and talk about it. The marriage of Los Angeles and Pasadena for the second time is an event equally as important as the first, and the advent in our midst of one or two roads, and we hope they will come together, will mark an epoch in our history, and something must be done. A banquet, with the Governor of the State here, and our Los Angeles friends, headed by the Mayor, a ball at the Raymond, a procession, suggestive of the advance made by Pasadena since the last railroad and the first entered the town. The whole city should be decorated with bunting, oranges and fruit. Let our thousand or more school children parade, if it is warm and pleasant, after the charming Brooklyn fashion, and be reviewed by the powers that be. These, our Republican clubs, our fire department, the Sons of Veterans, and old veterans, could make a display that would be a fitting mark of our appreciation of the fact that we are moving on.

THE Public Library, referred to elsewhere in a general way, demands the immediate attention of our citizens. If money was to be raised to erect a building there would be some excuse for inaction, but here we have a \$25,000 building all completed, with a few trivial exceptions, which the trustees alone, and unaided, cannot provide. The old library building, containing many thousand dollars' worth of book property, is liable to be destroyed at any time, not being fireproof, and with the proceeds of years of labor. That something should be done to preserve our credit there can be no possible doubt; but what? It is the opinion of many that the library should pass under the contract of the city; on the other hand, some of the trustees are opposed to the additional responsibility. It is doubtful if the taxpayers would object to the small additional burden that this would bring; it would be more than over-balanced by the benefits that would accrue in seeing our valuable collection in the new building and additions made from month to month. The library is a part of our educational system, appealing to every citizen, and of direct advantage to home and family. Thousands have enjoyed its privileges without pecuniary outlay. The invalids during the winter have here a comfortable room, with the periodicals of the day, and its benefits to the stranger within our gates are inestimable.

To the Chrysanthemum. What flashes of color, what radiance knew, Has suddenly burst on our vision? That's how O Chrysanthemum, var. in hue, All down through the valley.

The gold plumes flaunting, The gold glories gleaming, Whose soft winds are sighing.

They break unaccountable—colors oft-changing. From golden to yellow, from yellow to white; They bear blossoms drooping from branches wide-ranging. And thy pretty pink petals so airy, and light.

From hillside to hollow, Thy gaudy plumes flaunting, Enhancing the daylight. The dewy eve's glowing.

The autumn is thin, and laurel is thin, And surely the prize thou deserves! What matter if pany, or poppy, repine? Whilst thou thy bright beauty present?

The bright banners strreaming; By cottage and mansion, Thy gold globes are gleaming.

THE PUBLIC LIBRARY.**THE FINEST LIBRARY BUILDING IN THE SOUTH.**

A Glance at the Institution—What It Has Done and Will Do—Its Present Needs and Requirements—Facts for Book Worms.

The writer drove by our beautiful library building a few days ago with a gentleman from the East, who exclaimed, when we stopped, that it was a most attractive edifice, and a credit to a city of five times our size. The writer explained that as Pasadena was 50 per cent ahead of creation on any point, he could mention that it was only natural that all our buildings should be five times as imposing as those of other cities, which the writer seemed to accept as a logical conclusion.

The writer was about to say that

Public Library, Raymond Avenue

the building was in the course of construction, and thus explain the air of gloom that hung about the place, but the excuse was threadbare—had been used too many times, and reluctantly the truth situation was told.

But why disguise the facts? There it stands, a beautiful monument to the citizens of Pasadena—a pile of stone and granite, dedicated to education and free public improvement. How much longer shall its doors remain closed? Something should be done, and done quickly.

The history of the library is too well known to dwell upon. The names of Kiuney, Channing, Winston, Rust and Hopkins are identified with its early development, and, under the name of the Pasadena Village Improvement Association, built up 16 houses if this route is selected and will be used to meet the needs of the overlanders will run over the Santa Fe after November 1st.

A house moving down Colorado street yesterday attracted no little attention. Thing seemed to be going on inside despite the change of base.

The City Council meets this morning in regular session. Among the matters to be considered are the bids for the rental of a suitable building for municipal purposes.

Will Wakely, the well-known naturalist, is doing a large business in natural history supplies. He ships large numbers of birds, horned toads and tarantulas to the east.

The Society of Christian Endeavor of the Congregational Church held a meeting on Thursday evening to discuss the formation of a union of the several societies. Refreshments were served, and a pleasant evening spent.

This afternoon at 2 o'clock the Pasadena and the Pickwick clubs will try conclusions in a game of base-ball on the diamond at Sportsman's Park. As both teams are evenly matched, a close and exciting game can be expected. The batteries will be the same as last Saturday and nearly all of the same players.

The First National Club will meet this evening in the vestry-room of the Universalist church. It is expected that E. A. Boone and W. V. Moore will each lead a paper, after which a free discussion is invited as usual.

The club has the promise of addresses from Rev. R. M. Webster of Long Beach and other speakers of prominence who will be heard before the new era of things comes to pass.

F. J. Woodward set out some time ago a hedge of guavas near his residence. This fall he sold 2000 pounds of the fruit at 8 cents a pound. The guava can be made into a fine jelly which retails in Chicago at \$5 a dozen boxes. Formerly this product came directly from the West Indies, and at the above prices a good profit must have been made. Who says the waste orchards and fields are not worth cultivating with this fruit?

FISHING WITH A PICKAX. Curious Remains in a Clay Bed—The Secrets of Uplifted Strata.

Mr. Delos Arnold and some of his scientific friends go fishing in a queer way, using a pickax and no bait.

They dig in a clay bank down by Shorb's winery and find the delicate remains of fossil fishes pieces of sponge, etc., telling the story that Pasadena was under water once. Mr. Arnold, who has just returned from Marshalltown, owns one of the finest zoological collections in Southern California and his crinoids are the finest in the world.

There are good indications of a large immigration into Lake county the coming season.

The City of Pueblo has made the run from San Francisco to Victoria, B. C., in 50 hours, beating the record.

San Bernardino is in darkness. The electric lights are not burning, owing to a fit of economy of the city trustees.

The San Francisco Hebrew Home for the Aged will be opened on or about November 1st, on Lyon street, near Geary.

Judge Aitkin of San Diego, in questioning applicants for naturalization, asks them if they are Socialists or Nationalists.

Frank Kriessell went east as far as Detroit, Mich., yesterday morning. James McLauchlan is considered one of the best public speakers in the city.

The many friends of Mrs. Jean Giddings will be glad to hear of her recovery.

Public Administrator D. W. Field of Los Angeles, was in town yesterday on business.

Miss Mary Bradley, secretary of the Lawn Tennis Club, is one of the best players in the city.

H. H. Suerster is improving rapidly. His brother is attending to his many interests here.

Ben E. Ward and F. Minott Ward of Los Angeles were registered at the Southern for lunch yesterday.

The twinkle of the Steel star was seen on the mountain yesterday. Has the Mt. Wilson baby a tooth?

C. J. Fox, who has just returned from a trip to Europe, was in town yesterday from Lamanda Park.

Robert Liddle moved into the house of Stewart Taylor as soon as the new residence of the latter is completed, nearly all the gaudy feathers are represented, and in a way that shows careful and intelligent selection.

This is a fine showing, but the library needs more; little, if anything, has been done in adding to the collection in two years except certain donations, when by right a new installment should be received monthly to keep up public interest.

The reading-room of the library is relatively well equipped, and here the stranger can sit and read for perhaps half an hour, and all the magazines of the day. Some of the publications found here are as follows, and illustrates the range of the reading-room: Frank Leslie's News, Harper's publications, Los Angeles daily papers, New York Times, Witness, Science, Forest and Stream, Ontario Record, Pacific Rural Press, Riverside Press and Horticultural Boston Herald, Hartford Post, Pawtucket Chronicle, Worcester Spy, Rural Californian, Santa Barbara Independent.

E. Carr and wife arrived yesterday morning from Andover, N. H. They are the guests of Rev. E. L. Conger and family.

Mr. and Mrs. Granger, Miss Mably, Mrs. F. R. Rowland, Mrs. Sterling and Miss Cooley were elected members of Valley Hunt Club at the last meeting.

A. B. Davis, who has been spending the summer among the potato fields of Lordsburg, has accepted a position with Conrad & Hotaling, the clothiers.

SATURDAY MORNING, OCTOBER 26, 1889.

Pasadena Edition.

BY CARRIER: PER MONTH, SEC. 100,000
PER YEAR, \$10.

ent, Scientific American, San Francisco Chronicle and Examiner, National Tribune, People's War Magazine, Youth's Companion, Wide Awake, St. Nicholas, Century, Atlantic Monthly, Overland, Popular Science Monthly, North American Review, Eclectic, Unitarian, London Weekly Times, and World, Punch, London Graphic, Judge, Puck, Pacific Review, etc. The library has also a fine set of books of reference, encyclopedias, atlases, dictionaries, Government reports, maps, and red books of genealogies of interest to the student or genealogical reader. In short, we have here a library creditable to any city of our size, and a new building that would be a credit to any community, no matter how wealthy.

It is not necessary to dwell further upon the benefits which we derive from the library; the fact remains that the building is ready for the floors, plastering and furniture. A few thousand dollars will renew their monthly subscriptions, the librarian will be enabled to buy some new books, and if they will go further and give it their personal interest and influence, we shall see the building well equipped.

Sixteen of the local wheelmen will enjoy a chicken dinner at Puente on Sunday.

Capt. John Cross reports that the cars to be used on his road are on the way here from the works.

The Horticultural Society will hold a meeting in the Board of Trade rooms at 2 o'clock this afternoon.

The First National Bank has dis-

counted all claims against the city at a reduction of only 1 per cent.

J. W. Wood & Co., the pioneer drugists, are preparing to open their branch house at the Raymond.

Dodge reports his mountain re-

turns to the stagecoach.

The tracks at this point would be several feet above the stage-floor, and heavy damage would result unless some means were devised to carry off the storm water. Some other im-

portant business was transacted, which may be made public in a few days.

Points for Prudent Pasadenaans.

Any Pasadena subscriber to THE TIMES, or any person not now a subscriber, who chooses to pay THE TIMES in advance for one year's subs-

cription, will receive a discount of \$10.00 in advance.

The Valley Hunt Club has a business meeting today at 2:30 p.m. at the residence of B. M. Wotkyns, Colorado street.

M. Giddings has a zoological gar-

den at Main and Cauhan. A wild cat, fox,

raccoon and gigantic tarantula are the latest additions.

A railroad man of Los Angeles is authority for the statement that two overlanders will run over the Santa Fe after November 1st.

A house moving down Colorado street yesterday attracted no little attention. Thing seemed to be going on inside despite the change of base.

THE CITY IN BRIEF.

Two stray horses and a runaway were gathered in by the police yesterday.

Several petty cases were called in Judge Stanton's court yesterday, but were postponed.

N. Kipp was arrested at Commercial and Alameda streets yesterday for disturbing the peace.

Ralph Floyd was brought up from Wilmington yesterday and booked as inmate at the County Jail.

Officer Cottle took charge of Frank Taylor, whom he had been begging on the street yesterday afternoon, and lodged him in the City Jail.

Martha A. Memo filed a petition yesterday for letters of administration upon the estate of Frank Memo, the value of the estate being \$391.

There are undelivered telegrams at the Western Union Telegraph office for Mrs. J. L. Williams, Alice Clark, Charles Shephard and William Boardwell.

A petition was filed in the Superior Court yesterday by Dana Truesdell for the adoption of Edward F. Curt, who has been in the Orphans' Home since December 28, 1884.

The regular meeting of the Social Purple League of Los Angeles will be held this afternoon at 2:30 o'clock in Temperance Temple. As there is business of importance to be transacted a large attendance is desired.

A mistake was made in yesterday's issue by which, in the case of Ardams vs. McComas before Judge Wade, it appeared that judgment was rendered for the plaintiff, when it should have been for the defendant, Alice McComas.

The Thomas perjury case was called in Justice Lockwood's court yesterday and continued until November 2d, at 1:30 o'clock. This is the case in which the defendant swears to a complaint against a Mr. Persinger, in Justice Savage's court.

In Judge Van Dyke's court yesterday, in the forenoon, suit of Dr. K. D. Wise, vs. W. C. Wright, judge, was rendered for the plaintiff in the sum of \$20,132.22. The lands in the suit are located in the Antelope Valley, and the complaint was upon a promissory note.

William Griffith, whose second trial for an infamous crime is set for November 20th, is not William B. Griffith, the dry goods clerk who was with J. M. Hale & Co. for several years. The latter is a respectable man and does not wish to suffer from the similarity of names.

"F. B." writes a somewhat rambling letter to THE TIMES from Rosedale, contradicting an item which appeared yesterday relative to the dog case in his neighborhood. He concludes by saying, "If the dogs of Rosedale would let the dogs alone there would be no trouble, as there are no such dogs at Rosedale as are described by the article in THE TIMES."

PEOPLE'S STORE.

ON MONDAY WE WILL CELEBRATE OUR BIRTHDAY.

And Distribute Thousands of Articles for Less Than Cost Price in the Eastern Cities.

PEOPLE'S STORE,

LOS ANGELES, Oct. 26, 1889.

As we were saying yesterday, next the People's Store is our birthday. It will be just 5 years old on this day, and like all 5-year-olds we'll have to send it to school, although it is a conceded fact that Master People's Store is a very bright fellow for his age; yet he has to learn and a term of schooling will do him no harm, for we are firm believers that knowledge can't be taught, and the insignificant boy placed on the wares in many instances does not even pay one-fifth of the original cost. We have items worth 10c, worth 40c, worth 30c, worth 20c, and from the constant crowds before and show-windows, we know many a customer calls us the last day to take advantage of our encyclopedia offer. Hundreds have found their way into families, who have purchased goods to the amount of \$20. The book is invaluable as a fountain of information, containing 750 pages of valuable, useful matter.
